Core Cloud Services - Azure architecture and service guarantees

45 min • Module • 9 Units

★ ★ ★ ★ ★ 4.7 (47,033) | Rate it |

Beginner   Administrator   Developer   Solutions Architect   Student   Azure

Azure provides a global network of secure datacenters you can deploy your services into. Learn about the physical architecture of Azure, how redundancy is provided, and what service guarantees Microsoft provides.

In this module, you will:

- Explore the physical structure of Azure infrastructure
- Understand the service level agreements provided by Azure
- Learn how to provide your own service level agreements for your apps
